

C. Type 1 Service

- a. For traffic originated on Carrier's system and terminated on Company's system local usage or toll charges will be billed by Company to Carrier.
- b. For traffic originated on Company's system local usage or toll charges will be billed by Company to its customers
- c. A flat rate surcharge will be assessed monthly for each Type 1 Company Connecting Circuit used to facilitate originating and/or terminating traffic.

D. Other Rates and Charges

In addition to rates and charges identified in this Agreement, Special Construction and/or Individual Case Basis rates, charges and liabilities may apply when appropriate and agreed to by both parties, pursuant to Company's tariffs.

E. Termination Charges

- 1) In the event that this Agreement is terminated prior to initiating service to the public, or Carrier cancels an order for a Company Connecting Circuit(s) prior to placing it in service, and Company has incurred costs in connection with the Company Connecting Circuit(s) to be provided, Carrier shall reimburse Company the lesser of any

applicable non-recurring charges or the reasonable costs, less net salvage, actually incurred by Company.

- 2) Reasonable costs shall include, but not be limited to, the non-recoverable cost of equipment and material ordered, plus the non-recoverable cost of installation and removal including the costs of engineering, labor, supervision, transportation, rights-of-way, and other associated costs.

F. Deposits

Company reserves the right to require Carrier to make a deposit prior to or at any time after the provision of service to Carrier to be held by Company as a guarantee of the payment of rates and charges. A deposit will not be required of a Carrier that has established a satisfactory credit history and has a history of making all payments to the Company in a timely manner. Any such deposit required by Company will not exceed actual or estimated rates and charges for the service for a two month period. The fact that a deposit has been made in no way relieves the Carrier from complying with Company regulations concerning the prompt payment of bills by all customers.

When this Agreement is terminated, the amount of the deposits, if any, will be credited to the Carrier's

account to reduce any amounts or other liability owed by Carrier to Company. Any credit balance will be refunded or credited to Carrier's account when the Carrier has established credit or in any event after the Carrier has established a one-year prompt-payment record at any time prior to the termination of the Agreement. The requirement of a deposit may be reinstated at any time, at the Company's sole discretion, as a guarantee of the payment of rates and charges.

In the case of a cash deposit, for the period the deposit is held by Company, the Carrier will receive interest at the same percentage rate as that set forth in Particular Conditions provision Article 16 entitled BILLING AND COLLECTION. The rate will be for the number of days from the date Carrier's deposit is received by Company to and including the date such deposit is credited to Carrier's account or the date the deposit is refunded by Company. Should a deposit be credited to Carrier's account, as indicated above, no interest will accrue on the deposit from the date such deposit is credited to Carrier's account.

G. Independent Telephone Company Interchange of Traffic

At Carrier's request, Company will interchange Carrier's traffic between Company's tandem office(s) and subtending end offices owned by independent telephone companies.

For traffic that is originated on Carrier's System, interchanged over Type 2 Company Connecting Circuits and delivered to an independent telephone company for completion, Company will bill Carrier for Company's Local Transport or Switched Transport from the Point of Interconnection (POI) to the applicable meet point, plus whatever charges the Company pays to the independent telephone company for the completion of such traffic.

For traffic that is originated on an independent telephone company system and delivered to Carrier over Type 2 Company Connecting Circuits, Company will not bill or compensate Carrier.

The obligations imposed by this section are premised upon Carrier's and Company's understanding of the existing practice for such traffic. Company agrees to notify Carrier in writing, as soon as practicable, of proposed changes to existing practice which would be inconsistent with the terms of this section or would treat Carrier's traffic less favorably than other Company customer traffic. Company also agrees to support Carrier's inclusion in any further discussions concerning changes in this practice and in those discussions to support continuation of the terms of this Agreement. Carrier and Company agree to renegotiate the terms of this section to the extent necessary to comply with changes to existing practice between the Company and independent telephone

companies or any judicial or administrative decisions involving those arrangements.

H. Interexchange Carrier (IXC) Interchange of Traffic

For Type 2 Carrier mobile originated or terminated traffic delivered to or received from an IXC using the Company's facilities, charging will occur directly between Company and IXC. Company will not complete originating traffic from Carrier to IXC unless IXC has submitted a completed Access Service Request (ASR) to Company. Company will bill the IXC Local Transport or Switched Transport from the Carrier's physical POI to the serving wire center of the IXC.

It will be Carrier's responsibility to ensure that the designated IXC(s) places the necessary ASR(s) with Company. In those instances where Company bills the IXC using Carrier recorded usage, and in the event a dispute arises relating to such usage, then the parties agree that Company shall not be a party to such dispute and that Carrier shall be solely obligated to resolve any such disputes with an IXC. Company will, when requested in writing by Carrier or the IXC, provide whatever assistance to Carrier or the IXC that is reasonably required to achieve resolution of the dispute between Carrier and the IXC, provided, however, that if any such assistance is rendered, Carrier will pay Company's reasonable expenses in connection with assistance

provided by Company following its receipt of Carrier's written request. In the event that Carrier and IXC fail to resolve any such dispute within 180 days from the date the Company gives written notice to Carrier in accordance with Section II.9, Company may, at its sole discretion, elect to block Carrier's traffic that is directed to that IXC.

12. SUBSCRIBER CHARGES

Unless agreed upon through a separate Agreement, each party hereto shall be responsible for billing and collecting from its respective subscribers its lawful charges for all traffic originated by such subscribers and interchanged with the other party hereto.

13. AMENDMENTS TO TARIFF RATES/STRUCTURES

The charges contained in Attachment III shall be deemed amended to conform to any changes that may hereafter occur in regard to current tariff rates as incorporated in Attachment III; however, any changes to rate structure will not result in any new or additional charges being included in the current rates as set forth in Attachment III. Carrier retains the right to oppose any changes in rates/structure.

If either the interstate or intrastate access services tariff is withdrawn and not immediately superseded by another tariff, the existing rate referenced at that time by this Agreement will remain in force until such time as a new tariff is filed.

14. BILLING AND COLLECTION

On a monthly basis, an itemized statement of charges payable to Company by Carrier shall be rendered for charges incurred during preceding months with charges and credits to be determined as shown under Particular Conditions in provision Article 11 entitled CHARGES FOR FACILITIES AND INTERCONNECTION ARRANGEMENTS. Payment of billed amounts under this Agreement shall be due, in immediately available U.S. funds, within 30 calendar days of the bill date, or within thirty calendar days of the mailing of the bill, whichever is later.

If payment for the billed amount for any reason other than dispute of proper charges has not been received by Company within 60 calendar days of the bill date, Company may, at its option, disconnect Company Connecting Circuits and terminate service to Carrier. Company will notify Carrier, FCC, and the appropriate state regulatory commission, at least 25 days prior to terminating service. Notice shall be posted by certified mail, return receipt requested. If Carrier makes payment within the 25 day period, Company will not terminate service.

In any event, Carrier agrees to pay principal and a late payment charge on the balance of any of Company's charges to Carrier not paid by the date determined above.

The late payment charge to be charged will be compounded daily and computed at the lesser of: 1) the highest interest rate

which may be levied by law for commercial transactions (in daily decimal format); or 2) a daily factor of 0.00024657.

Although it is the intent of Company to submit timely and accurate bills, failure by Company to present bills to Carrier in a timely manner shall not constitute a breach or default by Company under this Agreement and Carrier shall not be entitled to dispute Company's bill(s) based on Company's failure to submit them in a timely fashion.

If a dispute arises between the parties as to the proper charges for the facilities or arrangements furnished hereunder, or any other financial arrangements, the failure to pay an amount in dispute shall not constitute cause for termination of this Agreement, provided that, within 30 days of the date that the dispute arises, a bond, escrow account, or letter of credit or other mutually acceptable security arrangement is made for the security of the amount in dispute. The existence of such dispute shall not relieve the parties hereto of their obligation to fully comply with the provisions hereof in which no dispute exists provided financial security for payment of the amount in dispute has been made as stated above.

15A. CREDIT ALLOWANCES

Credit allowances for failures, mistakes, omissions, interruptions, delays, errors or defects occurring in the course of furnishing any services or facilities, shall be

determined, using the same methodology identified in Company's tariffs for the type of failure, mistake, omission, interruption, delay, error or defect that has occurred. All credit for Company caused interruptions shall begin from the time of actual notice by Carrier to Company that an interruption of use has occurred. A credit shall not be applicable for any period during which Carrier fails to afford access to the facilities furnished by Company for the purpose of investigating and clearing troubles. In addition, a credit shall not apply when such interruption is caused by the negligence or willful misconduct of Carrier or its subscriber(s), or because of fault of facilities or equipment provided by Carrier or its subscriber(s), or any other cause other than the sole negligence or the willful or wanton misconduct of Company.

15B. LIMITATION OF LIABILITY

The liability of Company to Carrier for damages arising out of failure to comply with a direction to install, restore or terminate facilities; or out of failures, mistakes, omissions, interruptions, delays, errors, or defects occurring in the course of furnishing any services or facilities shall in no event exceed an amount equal to the pro rata monthly charge for the period in which such failures, mistakes, omissions, interruptions, delays, errors or defects occur. In addition, Carrier shall be entitled to the credit allowance provided in 15A.

16. COORDINATION WITH RESPECT TO NETWORK CONTINGENCIES

Carrier and Company shall cooperate in planning the actions to be taken to maintain maximum network capability following natural or man-made disasters which affect telecommunications services.

17. PROVISION OF INFORMATION

Carrier and Company agree to keep adequate records of operations and transactions and shall furnish to the other party such information as may be reasonably required for the administration of this Agreement.

Such record information shall include, but not be limited to, specific reports of call details relating to the percentage of intrastate/interstate traffic interchanged and any other data needed to compute Carrier charges.

Carrier, if willing and capable, also agrees to provide, pursuant to MECAB and MECOD guidelines, formatted billing information from Company recordings, if provided by Company, including Carrier's access MOUs for the billing of Local Transport to IXC's for the proper billing period or any other information required in its place in order to accomplish this billing. This information shall be provided to Company by Carrier on a monthly basis. If Company or Carrier submits incorrect information, Company and Carrier agree to correct and resubmit the information.

Absent the willingness and ability to determine by direct measurement or any other means, the relative amounts of traffic distribution that Carrier carries each month, Carrier may provide estimates of the percentages of its traffic distribution based on data and measurements which are reasonably available to it. Carrier will provide a complete written explanation of said estimates and shall make available for inspection any studies, traffic measurements, or other data at its immediate disposal necessary to test the reasonableness of said estimates. Said percentages will be subject to review by Company as to reasonableness.

In addition, Carrier shall furnish to Company, at Company's request once annually or more often if reasonably necessary, its anticipated NXX Code requirements, including an annual growth forecast or projection of usage, as specified in Particular Conditions provision Article 19 entitled NXX CODE. In addition, Carrier shall furnish to Company at Company's request once annually, or more often if Company reasonably requests, a forecast of trunking requirements.

II. GENERAL CONDITIONS

1. ASSIGNMENT

Except for monies due or about to become due, neither this Agreement nor any interest of Carrier hereunder, nor the use of any of the facilities furnished by Company hereunder may be assigned or in any manner transferred by Carrier except with

prior written consent of Company which consent shall not be unreasonably withheld. An assignment by either party to a parent, subsidiary or an affiliate of that party shall not be considered an assignment requiring prior approval under this Agreement. Any assignment made validly pursuant to this Agreement shall not release the Carrier from its underlying obligations under this Agreement. Any assignment or delegation in violation of this provision shall be void.

2. CAPTIONS

The captions in this Agreement are for convenience only and shall not be construed to define or limit any of the terms herein.

3. CHOICE OF LAW

The construction, interpretation and performance of this Agreement shall be governed by and construed in accordance with the domestic laws of the state of Maryland, except insofar as federal law may control an aspect of the Agreement in which case federal law will control.

4. CONTINGENCY

Neither of the parties shall be held responsible for any delay or failure in performance hereunder caused by fires, strikes, civil commotions, embargoes, requirements imposed by Government regulations, civil or military authorities, acts of God or by the public enemy or other similar causes. If such contingency occurs, the Agreement shall be suspended for the

duration of such contingency to the extent performance is prohibited or delayed, and the Agreement shall resume once the contingency ceases unless such Agreement is earlier terminated as provided for herein.

5. ENFORCEMENT

Neither parties' failure, at any time, to enforce or exercise any of the provisions of this Agreement or any right or remedy available hereunder, at law or equity, or any option herein provided, will in no way be construed to be a waiver of such provisions, rights, remedies or options or in any way affect the validity of this Agreement. The exercise by the parties of any rights, remedies or options available under the terms or covenants herein, at law or equity, shall not preclude or prejudice the exercising thereafter of the same or any other right, remedy, or option.

6. GIFTS AND GRATUITIES

The exchange or offering of any gift item, personal service, entertainment or unusual hospitality by either party of this Agreement to the other party is expressly prohibited. This prohibition is equally applicable to either party's officers, directors, employees, or agents.

7. LIABILITY

Neither party assumes any liability for any act or omission of the other or alleged act or omission of the other arising solely by virtue of entering into this Agreement.

The liability of Company for damages arising out of failure or delays in installation, maintenance or restoration of facilities, services or arrangements or as a result of mistakes, omissions, interruptions or errors or defects in transmission occurring in the course of providing such facilities, services or arrangements shall in no event exceed the amount of the allowance, if any, as shown under Particular Conditions in provision Article 15B entitled LIMITATION OF LIABILITY.

Company shall reimburse Carrier for damages to premises or equipment of Carrier resulting from the provision of facilities, services or arrangements by Company on such premises or resulting from the installation or removal thereof, if caused by the negligence or other tortious act of Company.

Carrier shall reimburse Company for damages to facilities and equipment of the Company provided under this Agreement if caused by the negligence or other tortious act of Carrier, or resulting from Carrier's improper use of Company's facilities, or due to malfunction of any facilities or equipment provided by other than Company or resulting from theft or vandalism of facilities on Carrier's premises provided by Company under this Agreement.

Each party will, upon receiving the reimbursement payment as required herein, cooperate with the other in prosecuting a

claim against the person causing such damage and the reimbursing party shall be subrogated to the right of recovery by the other for damages to the extent of such payment.

The Parties shall cooperate with each other in the defense of any suit, claim, or demand by third persons against either or both of them arising out of the connection arrangements and interchange of traffic hereunder including, without limitation, Workmen's Compensation claims, actions for infringement of copyright and/or unauthorized use of program material, libel and slander actions based on the content of communications.

Neither party shall be required to reimburse the other for any claim or loss pursuant to this paragraph where the amount in controversy is less than one hundred dollars (\$100).

In no event, however, shall either party have any liability to the other for any special, indirect, incidental, or consequential damages, regardless of cause, whether remedy is sought in contract, negligence, strict liability, or otherwise. The foregoing exclusion of damages shall not apply to damages arising out of or resulting from injuries, including death to persons or damage to property.

8. MODIFICATION

Except as otherwise provided in this Agreement, this Agreement may be modified or changed only by written amendment signed by

Carrier and Company.

MODIFICATION BY TARIFF

In the event a regulatory body approves a tariff governing interconnection between Company and Commercial mobile Services Carriers, the terms and conditions of this Agreement that are inconsistent with or contradictory to the terms and conditions of the tariff shall be deemed modified or superseded, as the case may be, to incorporate the provisions of such tariff whether or not such tariff remains subject to review in an administrative proceeding or court of law. Otherwise, all terms and conditions of this Agreement not modified or superseded by such tariff shall remain in full force and effect.

MODIFICATION BY REGULATION(S), DECISION(S), ORDER(S)

In the event the FCC or a state regulatory body establishes regulation(s), or by decision(s) or order(s) establishing the requirements, terms, and/or conditions governing interconnection of Carrier with Company, this Agreement shall be deemed to be modified to comply with such regulation(s), decision(s), or order(s), and any terms and conditions of this Agreement that are inconsistent with or contradictory to the regulation(s), decision(s), or order(s) shall be deemed modified or

superseded, as the case may be.

Company and Carrier agree to execute promptly any documents necessary to carry out the provisions of this article.

9. NOTICES

All notices or other communications hereunder required or permitted to be given by either party to the other shall be made in writing and shall be delivered in person or sent by certified mail, return receipt requested, or registered mail, or a courier service providing proof of service, and addressed as set forth in Attachment I. The address to which notices or communications may be given to the other party may be changed by written notice given by such party to the other.

10. NO WAIVER

Nothing in this Agreement shall be deemed an admission by either party hereto that any provision of state or federal law has been complied with or violated, as the case may be; nor shall such Agreement, or any portion thereof, be deemed a waiver of any rights or remedies either party may have under such state or federal law.

11. PROTECTION

Carrier and Company each recognize a responsibility to follow the standards prescribed in Section I.5 and to employ characteristics and methods of operation which will not

interfere with or impair the service or any facilities of the other or any third parties connected with or involved directly in the network of the other.

A. Interference or Impairment

If Company or Carrier reasonably determines that the characteristics and methods of operation used by the other will or may interfere with or impair services provided by Company, either party shall have the right to discontinue interconnection subject, however, to the following:

- (1) Company or carrier shall have given the other 10 days prior written notice of interference or impairment or potential interference or impairment which specifies the time within which Company or Carrier is to correct the condition; and,
- (2) Company or Carrier shall have concurrently provided a copy of the notice provided to the other under (1), above to the FCC and the appropriate State regulatory commission.

Notice in accord with (1) and (2) above shall not be required in emergencies and Company or Carrier may immediately discontinue interconnection if reasonably necessary to meet its obligations. In such case, however, Company or Carrier shall use all reasonable

means to notify the other, the FCC, and the appropriate state regulatory commission.

Upon correction of the interference or impairment, Company or Carrier will promptly renew the interconnection. During such period of discontinuance, there will be no compensation by Company or Carrier to the other for interruptions and the Particular Conditions in provision Article 15A entitled Credit Allowances will not be applicable.

B. Repeated or Willful Noncompliance

The interconnection hereunder may be discontinued by either party upon 30 days written notice to the other for repeated or willful violation of and/or a refusal to comply with this Agreement. The party discontinuing will notify the FCC and the appropriate state regulatory commission concurrently with the notice to the other party of the prospective discontinuance.

12. SEVERABILITY

In the event that any one or more of the provisions contained herein shall for any reason be held to be unenforceable in any respect under the law of the state of Maryland or of the United States of America, such unenforceability shall not in any way affect any other provision of this Agreement, but this

Agreement shall then be construed as if such unenforceable provision or provisions had never been contained herein.

13. PROPRIETARY INFORMATION

The terms and conditions of this Agreement relating to Proprietary Information are set forth and attached hereto in Attachment IV.

14. REGULATORY, JUDICIAL OR OTHER GOVERNMENTAL ACTION

If any regulatory, judicial or other government body acts to prevent Company from providing facilities or services, or fails to grant all approvals or permissions which may be necessary to implement service, Company is released from any and all obligations arising under this Agreement.

15. SUBSEQUENT AGREEMENT WITH OTHER CARRIERS

Subsequent to the date of this Agreement, Company will provide written notice and make available to Carrier within ninety (90) days of the effective date of the newer Agreement any terms, conditions and rates provided to any other Commercial Mobile Radio Service Carrier not contained in this Agreement, provided, however, if Carrier so elects to adopt such other terms, conditions, and rates, it must notify Company in writing of such election.

16. ENTIRE AGREEMENT

This writing, together with all attachments which are incorporated herein by reference, constitutes the entire Agreement between the parties and shall not be changed except by written Agreement signed by both parties or by actions of regulatory or other governmental bodies. The Agreement revokes and supersedes any prior correspondence, or charging plans discussed between Carrier and Company for the provision of Type 1 and/or Type 2 interconnections. Service orders and other forms that may necessarily be issued by the parties to this Agreement shall be used exclusively as a means of providing through communications service as provided herein and shall not be deemed in any way as changing the terms and conditions as stated within this Agreement, even if signed by representatives of both parties.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed in their behalf on the dates set forth below:
